

John Benedick V. Borgonia

Quezon City, Philippines
jvborgonia@gmail.com | +63 916 777 0453

Professional Summary

Detail-oriented and analytical Data Analyst with strong expertise in SQL and hands-on experience supporting Google Cloud database environments. Currently working as an Data Eng, Mgmt & Governance Analyst for Google Cloud Databases, with experience in SQL optimization, database performance monitoring, cloud-based analytics, and data migration. Skilled in Python, BigQuery, and dashboard reporting, with additional exposure to AI prompt engineering and full-stack development. Adept at translating technical findings into actionable insights and collaborating with cross-functional teams in remote environments.

Technical Skills

- SQL (PostgreSQL, MySQL, SQL Server)
- Python (Pandas, NumPy, Matplotlib)
- Google Cloud Platform (Cloud SQL, BigQuery, Cloud Storage)
- ETL Processes and Data Migration
- Looker Studio / Google Data Studio
- Excel & Google Sheets (Pivot Tables, VLOOKUP, Power Query)
- Basic Java, ReactJS, REST API, and Jenkins
- Prompt Engineering & Technical Writing

Experience

Accenture – Data Eng, Mgmt & Governance Analyst

Feb 2024 – Present, Philippines

- Designed and optimized SQL queries using PostgreSQL for data extraction, transformation, and reporting.
- Assisted in data migration and validation between on-premises and Google Cloud SQL environments while ensuring data integrity.
- Monitored database performance metrics and implemented optimizations that improved query response times
- Delivered support for Google Cloud Platform database services, including troubleshooting, configuration, and access management.
- Improved reporting workflows through cloud-based analytics and pipeline troubleshooting.
- Collaborated with remote and cross-functional teams to resolve technical issues efficiently.

Accenture – Prompt Engineer / Technical Writer (LLM Project – Google Bard)

March 2023 - September 2023 | 6 Months

- Reviewed and analyzed AI-generated content to ensure quality, accuracy, and alignment with client standards.
- Improved Large Language Model outputs by refining prompts and modifying generated responses.
- Collaborated with teams to enhance content consistency and credibility.
- Created prompts and responses to improve overall LLM performance and user interaction quality.

Accenture – Associate Software Engineer [Full Stack Developer School (Java + React Bootcamp)]

Sept 2022 – Dec 2022, Philippines | 3 Months

- Developed CRUD functionalities for a POS application using ReactJS and MySQL.
- Built foundational knowledge in Java, Spring Boot, Maven, and REST API integration.
- Used SonarQube to analyze and improve code quality.
- Deployed applications using Jenkins and gained exposure to DevOps workflows.

ESCA Incorporated – Civil Engineer Intern

June 2019 – Sept 2019, Philippines | 3 Months

- Supported project planning through data collection and analysis.
- Assisted in technical documentation, reporting, and project coordination.

Achievements/Certifications

- **Licensed Civil Engineer** – May 2022
- **Google Associate Cloud Engineer** – Nov 2023
- **Professional Google Cloud Database Engineer** – July 2024
- **Professional Google Workspace Administrator** – Aug 2024
- **Professional Google Cloud Network Engineer** – Aug 2024
- **Professional Google Cloud DevOps Engineer** – Sept 2024
- **Professional Google Cloud Architect** – Jan 2025

Education

University of Santo Tomas – B.S. in Civil Engineering

June 2015 – June 2020, Manila, Philippines
